

SAE/JSAE 2016 SMALL ENGINE TECHNOLOGY CONFERENCE & EXHIBITION

November 15-17, 2016

Towards Safer and More Sustainable Small Engines and Applications

SAE International, along with Society of Automotive Engineers of Japan, Inc. (JSAE) is proud to sponsor the 22nd annual Small Engine Technology Conference in Charleston, South Carolina. This long standing event offers up-to-date information on the state of technology, safety and sustainability for small engines.

Explore the challenges and developments in small engine technology from OEMs, suppliers and academia from around the world. A wide range of vehicles will be highlighted from ATVs, scooters and motorcycles to portable power generators, lawnmowers and hand tools.

- Special events including the Wednesday Evening Banquet and Technical Tours provide the perfect opportunity to network and make critical connection with peers in the industry
- Exhibition features over 20 industry leading companies showcasing the latest technology and innovations in small engines including: AVL, Honda R&D, the Lubrizol Company, Robert Bosch LLC, MAHLE Industries Inc, and Cambustion Ltd
- Solutions-oriented technical program covers a wide variety of products and engines with many manufacturers and suppliers represented by 13 countries from across the globe
- 3 Keynote presentations and an executive panel to discuss and debate the theme: Safer and More Sustainable Small Engines and Applications

Sign up now to exhibit or sponsor at the SAE/JSAE 2016 Small Engine Technology Conference & Exhibition!
